

2K-Professional Wood Chisels

(bi-material handle)

Handle:

- highly impact resistant
- ergonomic shape greatly reduces fatigue
- extra long handle for precise control
- asymmetrical profile with non-slip rubber inserts
- interchangeable coloured rubber rings for easy identification
- hole in handle for presentation and storage on tool racks
- Rollstop – two flat faces prevent chisel from rolling off the bench
- well balanced chisel

Blade:

- high-tensile alloy tool steel
- hardened to HRC 62 up to the final 3 cm
- mirror polished
- clearly marked with article number
- water-soluble, transparent lacquer for anticorrosion
- detachable blade guard
