SAPPEL WITH PLASTIC HANDLE

Sappel with plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6742 06	600 mm	680 g	941288

The **sharpened TIP** pulls perfectly and easily into the wood.

This Sappel was specifically designed for **lifting lighter wood pieces** to conveniently transport them to a log splitter.

Ideally used for cleaning up **smaller, lighter pieces of wood**.

Handle with knob & hanger hole.

Sappel with hammer head & plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6742 07	600 mm	780 g	941295

The **sharpened TIP** pulls perfectly and easily into the wood.

This Sappel was specifically designed for **lifting lighter wood pieces** to conveniently transport them to a log splitter.

SAPPEL & LIGHTAXE WITH PLASTIC HANDLE

Hand lifting hook with STUBAI cutting edge & plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6742 46	600 mm	840 g	941301

Using the cutting edge: to cut remaining wood fibres on split logs. Suitable to **knock off smaller branches**. To lift light, cut in length chumps as well as to clean up smaller and light pieces of wood, as well as for **universal use in recovery vehicles**.

Handle with knob & hanger hole.

Lightaxe with plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6720 56	600 mm	1.000 g	941332

Blade length: 100 mm

This hatchet is very suitable for pruning (thinning).

It can also be used for chopping **smaller trees**.

However, it can also split smaller pieces of wood. For a **balanced weight**, a striking surface was attached to the hatchet. Handle with knob & hanger hole.

Hook with plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6708 66	600 mm	980 g	941325

Blade length: 180 mm

This hatchet is very suitable for **pruning** (thinning).
It can also be used for chopping smaller trees.
Also, this hatchet can be used in **agriculture, forest maintenance and hunting**.
Handle with knob & hanger hole.

Felling Lever with plastic handle

Article Number	Length	Weight	EAN-Code 9002793
6746 56	600 mm	1.100 g	941318

This Felling Lever with the surface plate is the **latest Innovation**.
The big advantage is that even with the surface plate in combination with the aluminum handle a **relatively low weight** is achieved. At the end of the handle is a hole for hanging the tool to your toolbelt with a carabiner system.
Handle with knob & hanger hole.
